

Travel Management Operation System Overview

The I-TMOS solutions are part of the overall INFO121 Travel and Transport Portal. Here at INFO121, we have developed a easy to use booking engine for Hotel, Coach and Tour Packages that you, the Travel Agencies can deployed easily for their front office staffs, for customers (B2C) and for their resellers/ partners (B2B), all integrated into one web based platform.

Job Assignments thru' SMS to drivers, tour guides etc.

Benefits to Travel Agencies

- Entirely web based applications for ease of deployment and access for travel Agencies with multiple branches.
- Allow efficient maintenance of all prices for hotels and tours packages.
- Minimal training requirements for the staffs with our easy-to-use booking engine of hotel and tour packages booking
- Increase productivity and lower manpower requirements when using the B2B booking for partners and resellers.
- Allow customers to choose different hotels to suit their needs and budget when selecting the Tour Packages.

Features

- Specialized setup of prices for Hotels, Coach, Land Tours, Services, Transfer and Tour Packages.
- Efficient booking flow for both Hotels, Tour Packages booking ensures customers will enjoy booking online with your Travel Portal.
- Allow for alternative hotels and multiple destinations within Tour Packages
- Efficient shopping carts to handle all Online Bookings.
- Online Membership so that customer can review their bookings request online.
- Email notification to Travel Agencies for online enquiries.
- B2B bookings for partners, resellers and other Travel Agencies.
